Module 5 reference

Created: Monday, 08 December 2025 at 16:16 BST **Module:** 5 - Free AI Agents **Purpose:**
Demonstrate that agents are skill-based, not domain-locked

The Core Insight

Agents are labelled by their original use case, but their **underlying skills transfer to any domain**.

```
%%{init: {'theme':'dark', 'themeVariables': {'nodeTextColor': '#e8e8e8',
'primaryTextColor': '#e8e8e8', 'secondaryTextColor': '#cccccc', 'tertiaryTextColor':
'cccccc',
'primaryColor': 'transparent',
'primaryTextColor': 'ffffff',
'primaryBorderColor': 'ffffff',
'lineColor': 'ffffff',
'secondaryColor': 'transparent',
'tertiaryColor': 'transparent',
'background': '#000000',
'mainBkg': 'transparent',
'secondBkg': 'transparent',
'tertiaryBkg': 'transparent',
'fontSize': '14px'
}}}%%
```

flowchart LR

width:2px,color:#ffffff,padding:15px
```

```
class A,B,C default
```

Discussion Flow: Real-World Examples

Question 1: DVLA Data Entry

Scenario: A delegate wants team members to input data into the DVLA website.

```
%%{init: {'theme':'dark', 'themeVariables': {'nodeTextColor': '#e8e8e8',
'primaryTextColor': '#e8e8e8', 'secondaryTextColor': '#cccccc', 'tertiaryTextColor':
'#cccccc',
'primaryColor': 'transparent',
'primaryTextColor': '#ffffff',
'primaryBorderColor': '#ffffff',
'lineColor': '#ffffff',
'secondaryColor': 'transparent',
'tertiaryColor': 'transparent',
'background': '#000000',
'mainBkg': 'transparent',
'secondBkg': 'transparent',
'tertiaryBkg': 'transparent',
'fontSize': '14px'
}}}%

flowchart LR
    Q1["DVLA<br/>Data Entry<br/>Need"] --> S1["What Skill?<br/>Documentation<br/>or
Automation"]
    S1 --> A1["Agent-3<br/>Content Creator<br/>SOPs & Guides"]
    S1 --> A2["Playwright MCP<br/>Browser<br/>Automation"]

    classDef default fill:transparent,stroke:#ffffff,stroke-
width:2px,color:#ffffff,padding:15px

    class Q1,S1,A1,A2 default
```

If Training Team (Documentation)

Use **amazon-agent-3** (Content Creator):

- Create step-by-step SOP
- Build data entry checklist
- Write error-handling procedures
- Draft training materials

Also consider **admin-coordinator** for SOP drafts.

If Automating Process

Use **Playwright MCP**:

- Navigate to DVLA website
- Fill form fields programmatically
- Handle multi-step forms
- Screenshot verification

Note: Check DVLA terms of service first.

Question 2: Amazon Seller Central Audit

Scenario: Make sure Amazon isn't overcharging fees or missing reimbursements.

```
%{init: {'theme':'dark', 'themeVariables': {'nodeTextColor': '#e8e8e8',
'primaryTextColor': '#e8e8e8', 'secondaryTextColor': '#cccccc', 'tertiaryTextColor':
'cccccc',
'primaryColor': 'transparent',
'primaryTextColor': 'ffffff',
'primaryBorderColor': 'ffffff',
'lineColor': 'ffffff',
'secondaryColor': 'transparent',
'tertiaryColor': 'transparent',
'background': '#000000',
'mainBkg': 'transparent',
'secondBkg': 'transparent',
'tertiaryBkg': 'transparent',
'fontSize': '14px'
}}}%

flowchart LR
    Q2["Seller Central<br/>Fee Audit<br/>Need"] --> S2["What Skill?<br/>Financial<br/>Analysis"]
    S2 --> A3["Agent-6<br/>Analytics Reporter<br/>Financial Forensics"]
    A3 --> O1["FBA Fee<br/>Discrepancies"]
    A3 --> O2["Lost Inventory<br/>Claims"]
    A3 --> O3["Reimbursement<br/>Gaps"]

    classDef default fill:transparent,stroke:#ffffff,stroke-
width:2px,color:#ffffff,padding:15px

    class Q2,S2,A3,O1,O2,O3 default
```

Agent-6 Core Skill: Financial analysis and budget tracking

WHAT AMAZON GETS WRONG	WHAT AGENT-6 FINDS
FBA fee overcharges	Dimension/weight vs actual product
Lost inventory	Shipments sent vs received vs reimbursed
Damaged inventory	Units damaged but not credited
Customer returns	Returns not restocked or reimbursed
Referral fee errors	Wrong category percentages
Storage fee spikes	Aged inventory cost analysis

The Pattern: Skill-Based Thinking

```
%%{init: {'theme':'dark', 'themeVariables': {'nodeTextColor': '#e8e8e8',
'primaryTextColor': '#e8e8e8', 'secondaryTextColor': '#cccccc', 'tertiaryTextColor':
'#cccccc',
'primaryColor': 'transparent',
'primaryTextColor': '#ffffff',
'primaryBorderColor': '#ffffff',
'lineColor': '#ffffff',
'secondaryColor': 'transparent',
'tertiaryColor': 'transparent',
'background': '#000000',
'mainBkg': 'transparent',
'secondBkg': 'transparent',
'tertiaryBkg': 'transparent',
'fontSize': '14px'
}}}%%
```

flowchart LR

```

width:1px,color:#ffffff
```

```
class W1,R1,R2,R3 default
```

Agent Skills Quick Reference

AGENT	LABEL SAYS	CORE SKILL	CAN BE USED FOR
amazon-agent-1	Trend Researcher	Market analysis	Any industry trends, competitor research
amazon-agent-2	Reddit Scout	Community research	Any forum/community insights
amazon-agent-3	Content Creator	Documentation	SOPs, guides, training materials
amazon-agent-4	Growth Hacker	Phase coordination	Any project timeline management
amazon-agent-5	TikTok Strategist	Social content	Any platform content strategy
amazon-agent-6	Analytics Reporter	Financial analysis	Any budget/fee/cost analysis
amazon-agent-7	Feedback Analyst	Decision framework	Any multi-stakeholder decisions
amazon-agent-8	Support Responder	Communication templates	Any vendor/client correspondence

Key Takeaway

Don't ask: "Which Amazon agent handles this?"

Ask: "What skill do I need?" Then find the agent with that skill.

The "Amazon" label is just where the agent started. The skill is universal.

Workshop Exercise

Present delegates with random scenarios and have them identify:

1. What skill is needed?
2. Which agent has that skill?
3. How would they prompt it?

Example scenarios:

- "I need to compare three software vendors"
- "My team keeps making the same mistakes"
- "I want to understand what customers say on forums"
- "I need to track where our budget is going"
